

InterFlex Group Scoops Top Awards!

The InterFlex Group has received widespread recognition in the prestigious 2010 EFTA Awards Competition. This is an established annual industry event, celebrating excellence in flexographic printing. The Gala dinner was held on the 24th March 2010 at the Royal Armouries, Leeds, where over 500 industry figures gathered for the announcement of the recipients of the top awards for this year.

InterFlex Group once again figured strongly, picking up a total of eight awards on the night. Four of these were Gold winners, (out of five available in the flexibles category) in the narrow, medium and wide web classes for both paper and film substrates. This follows the Group's success in previous years, which included special recognition from EFTA for Technical Achievement and Manufacturing Efficiency as well as BPIF Award: "Best Lean Manufacturer".
